4. 'Rain Water Harvesting' system is set in our college.
5. Wash basin waste water is used for watering the plants in the garden.

7.2 –Best Practices

Our college organizes various significant programmes every year. Some of those are – Blood Donation Programme and Plantation Programme, etc, which are important in itself, on a grand

level. In 2018 Blood Donation Programme was set up on 07.12.2018, in which the students as well as the teachers showed their fervour in participating and feeling proud to be the part of it, because it is the best service in terms of saving life. Our college calls for different groups to this respective purpose like Red Cross Society, City Blood Bank, etc. Last year it was City Blood Bank that gave our college the opportunity to serve the nation and humanity as well. Second practice is Plantation Programme which is organized almost every year. Last year it was arranged on 7th December 2018 which came to an end successfully. Here also the students as well as teachers took part enthusiastically. The growth of the trees can be seen distinctly as the trees are taken care of properly. This practice is done as trees play important role in prohibiting pollution, giving vital oxygen and clearing atmosphere.

7.3 – Institutional Distinctiveness

Our college is outlined in terms of many matters. One of these is felicitating the Ph. D. scholars as this is a big academic achievement. The college has decided to honour them with gold medals with certificates as a symbol of toil and esteem. It encourages others to achieve something monumental in life.
